

PROFLex®

825WP

WINTER WORK GLOVES

ProFlex® 825WP Winter Work Gloves with dual-zone 3M™ Thinsulate Insulation and glove liner keep hands warm and dry when working in extreme cold. Inclusion of a separate, touchscreen-compatible glove liner enables you to remove the outer layer without exposing bare hands when higher dexterity is needed. New and improved palm material and fingertip reinforcements provide enhanced grip and protection for safe, secure handling of equipment and materials.

Features

- THERMAL PROTECTION – Dual-zone insulated with 80 grams (palm) and 150 grams (back of the hand) 3M™ Thinsulate™ for extreme hand protection in cold conditions
- DUAL LAYER – Insulated thermal shell can be removed to utilize separate inner liner for hand protection during high-dexterity tasks
- WATERPROOF – Shell blocks moisture and wind to keep hands dry
- SUPERIOR GRIP – New and improved palm and fingertip reinforcements are abrasion-resistant and flexible for secure handling in cold temperatures
- SECURE FIT – Extra-long/wide gauntlet cuff with elastic cinch cord easily fits under or over jacket sleeves to seal in warmth
- DEXTERITY – Lightweight and non-bulky insulation, plus neoprene knuckle pad for flexible range of motion
- TOUCHSCREEN CAPABLE LINER – Swipe, tap and type on smartphones and tablets with thumb and index finger on liner glove
- REFLECTIVE ACCENTS – For enhanced wearer visibility
- EN 388 RESULTS PENDING
- MACHINE WASHABLE

ITEM #	SIZE	COLOR
17602	S	Black
