# SIZE UP THE SITUATION

Improperly sized gear is a prime cause of heartache and sadness. Remember when you showed up at school wearing high-water pants? Of course that's nothing compared to the crack-tacular combination of too-short shirt and too-loose pants. Don't let these calamities occur. Your gear will be more effective and comfortable if you choose appropriate sizes.

**CHEST:** Measurement should be taken around the fullest part of the chest with arms down, just under the arms and across the shoulder blades.

**WAIST:** Measure around waist (not pulling tightly) at the height you prefer to wear the waistband.

**INSEAM:** Take a pair of pants that fit you well and measure from the crotch to the bottom of the leg.
