FOR THE ONES WHO GET IT DONE

TOOL TETHERING + DROPPED OBJECTS SAFETY HANDBOOK

SOLUTIONS, SUPPORT AND OUR COMPLETE OBJECTS AT HEIGHTS LINEUP

MISTAKES HIT HARDER UP HERE

ONE SMALL DROP. ONE TON OF TROUBLE.

More and more workers are finding themselves ascending to heights in all industries, and along with them, the tools and equipment necessary to do the job.

Join us in setting a higher standard in at-heights safety with innovative solutions, immersive education and a proactive game plan to stop drops and the damage done. Hit back against gravity at [ERGO.ZONE/DROPS](#)

THE RISK

LUCK IS BAD POLICY.
DROPS WILL HAPPEN.

A NEAR-NUCLEAR LESSON ON THE
IMPORTANCE OF KEEPING THINGS
TETHERED AND TIED.

ONE DROP. UNTHINKABLE CATASTROPHE.

The most serious nuclear threat in the history of the U.S. came not from the Soviets, but from a single nine-pound wrench socket.

Dropped by an airman performing maintenance on a Titan II missile at a launch complex in Damascus, Arkansas, the socket fell 70 feet, ripping a hole in a fuel tank, leading to an explosion that forced a 9-megaton warhead out of the ground.

Thankfully, safety features prevented any loss of radioactive spillage or detonation—but the explosion killed one and injured about twenty more. The 1980 Damascus Titan missile explosion is a drastic example of what can result from operating like everything is going to work perfectly every time. In this case, it almost wiped an entire state off the map.

THE RISING COST OF FALLING OBJECTS

Severe injury and fatality from dropped objects—even something as small as a wrench socket—are all too common, resulting in thousands of injuries, hundreds of deaths, hundreds of millions in total costs and who knows how many close calls every year.

50,000+ INJURIES

Falling objects or equipment resulted in 5%+ of all workplace injuries.

OVER 300 FATALITIES

Represents approximately half of all “struck by” incidents and 5% of all workplace fatalities.

OVER \$450,000,000

Fatalities x \$1.4M = the average cost per fatal accident.

*ANNUAL AVERAGES PER BLS & NSC DATA

PREVENTION

DOWN TO A “T”**
A COMPLETE TETHERING
SYSTEM 101

THE 3Ts OF DROPS PREVENTION

We all know the ABCs of human fall protection. But what about the “3Ts” of fall protection for tools and equipment?

1 TRAPPED

2 TETHERED

3 TOPPED

1 2 3

TRAPPED

CREATING CONNECTION POINTS ON TOOLS AND EQUIPMENT

Trapping refers to retrofitting a connection point onto a tool or primary anchor for a safer attachment point. Most tools do not come with a secure attachment point built into the tool. In these situations, a secure attachment point must be created.

1 2 3

TETHERED

RETENTION BETWEEN TOOLS/GEAR AND ANCHOR POINTS

Tethering is the retention of tools and equipment to the anchor points that hold them. This is often achieved through use of a tool lanyard. These lanyards should have the proper connection on each end for the tools and anchors being used. They should also be made with a shock-absorbing design whenever possible.

1 2 3

TOPPED

SECURE CLOSURE ON CONTAINERS FOR TOOLS AND EQUIPMENT

Tool pouches, bags and hoist buckets/bags should have a secure closure or “top” that can cover contents and prevent them from spilling if tipped. All containers may have tethering points available to attach tool lanyards but, if a container does not have a secure closure, it must have these tethering points available.

THE STANDARD

ANSI/ISEA 121
A HIGHER STANDARD IN
AT-HEIGHTS SAFETY

Recognizing the pressing need for formal guidelines within the category of Objects at Heights, leading safety equipment manufacturers like Ergodyne joined forces with the International Safety Equipment Association (ISEA) to develop a standard for tethering and transporting tools and equipment. ANSI/ISEA 121 is the first standard for this type of equipment.

WHAT ANSI/ISEA 121 COVERS

Similar to ANSI Z359 for fall protection, ANSI/ISEA 121 is recognized as industry best practice. Though not directly enforceable by OSHA, the standard can be referred to under the General Duty Clause to interpret a better way for protecting workers against falling objects. The current standard focuses on four classes of preventative solutions actively used by workers to mitigate dropped objects: tool attachments, anchor attachments, tool tethers and containers.

The measure does not address things like passive preventative solutions (netting, toe boards, etc.) or best practices in the field—like telling workers where they should connect a tool lanyard on their harnesses.

ANCHOR ATTACHMENTS

Retrofit attachment points installed onto tools and equipment, allowing them to be tethered.

TOOL TETHERS

Lanyards that connect tools to an anchor point.

TOOL ATTACHMENTS

Retrofit attachment points installed onto tools and equipment, allowing them to be tethered.

CONTAINERS

Bags and buckets used to transport tools and equipment to and from at-heights work zones.

DESIGN & TESTING

Preventing wayward wrenches from wreaking worksite havoc is one thing. Doing it without creating time-sucking tangles or even new hazards is quite another. Squids Lanyards offer obsessively designed solutions for any environment—from wide open spaces to cramped quarters.

TESTED TO BE TRUSTED

Every component of our Tethering Systems is stringently tested at a certified, third-party testing lab.

SCAN TO SEE THIRD-PARTY TESTING >>>

TRAPPED: SQUIDS TOOL + ANCHOR ATTACHMENTS A hold-on-tight tethering point for every tool.

From power tools to water bottles, you’ve got the hookup with Squids Tool + Anchor Attachments—helping create an ANSI-approved tethering point on...just about anything.

POWER TOOLS
Retrofit tethering points for power tools can get clunky. Squids Tool + Anchor Attachments stay out of the way of tool operation and a job well done.

HAND TOOLS
From spud wrench to the smallest wee little hex wrench, you’ll find a Squids solution to tie off hand tools of any size, shape or weight.

INSTRUMENTS + DEVICES
Avoid dropped calls, flying Dasani and tumbling tape measures. If it’s going up, we’ve got solutions to lock it down.

TETHERED: SQUIDS EQUIPMENT + TOOL LANYARDS Don’t let your drops prevention solution become part of the problem.

With mindful considerations for every workspace, Squids Lanyards make sure you don’t get twisted up in a game of safety whack-a-mole trying to squash the drops.

SHOCK ABSORBING
Don’t let your lanyard drag you down. Shock-absorbing designs help reduce the dynamic force on the body if a drop occurs.

RETRACTABLE
Eliminate the octopus effect with retractable designs that limit snag hazards and keep a low profile when anchored.

RESILIENT MATERIALS
Designed and constructed to withstand heavy, repeated use and the rugged realities of your worksite.

TOPPED: ARSENAL GEAR + TOOL STORAGE Hoist it. Holster it. Haul it.

Spend less time thinking about the best way to safely bring what you need above ground level and more time thinking about your regularly scheduled conundrum with Arsenal Gear + Tool Storage.

SECURE CLOSURES
Keep tools, gear and hardware secure when your world gets turned upside down.

TETHER POINTS
Add more ANSI-rated attachment points to your tool rig while also housing small parts and hardware.

HEAVY-DUTY CONSTRUCTION
Hard work is hard on gear. Arsenal Gear + Tool Storage is built and tested to hold up to extreme environments and use.

TOOL TETHERING & DROPPED OBJECTS SAFETY:

TOOL TETHERING KITS

One kit. One worker. Squids Trades Specific Tethering Kits are locked and loaded with everything you need to tether the most common tools for your trade (with simplified step-by-step instructions to boot).

3183

CARPENTER & LABORER'S TETHERING KIT

KIT INCLUDES: 3713 Elastic Tool Tail (3), 3700 Web Tool Tail (6), 3755 Self-Adhering Tape Trap (2), 3704 Wire Loop Tool Tail (6), 3770L Tape Measure Trap (1), 3780L Power Tool Trap™ (1), 3156 Coil Tool Lanyard (2), 3118F(x) Tool Lanyard (1), 3108F(x) Tool Lanyard (1), 3400 Glove Clip - Dual Clip (1)

3160

TOWER CLIMBER TETHERING KIT

KIT INCLUDES: 3780L Power Tool Trap (3), 3704 Wire Loop Tool Tail (6), 3700 Web Tool Tail (6), 3755 Self-Adhering Tape Trap (1), 3770L Tape Measure Trap (1), 3740 Hand Tool Trap - S (4), M (4), L (4), XL (4), 3790 Shackle Trap - S (2), M (2), L (2), 3713 Elastic Tool Tail (3), 3118F(x) Tool Lanyard (1), 3108F(x) Tool Lanyard (1), 3166 Coil Tool Lanyard (1), 3002 Retractable Tool Lanyard (1)

3184

CONCRETE FINISHER & MASON'S TETHERING KIT

KIT INCLUDES: 3713 Elastic Tool Tail (3), 3700 Web Tool Tail (6), 3755 Self-Adhering Tape Trap (2), 3797 Power Tool Trap - Grinder (1), 3770L Tape Measure Trap (1), 3156 Coil Tool Lanyard (2), 3118F(x) Tool Lanyard (1), 3108F(x) Tool Lanyard (1), 3400 Glove Clip - Dual Clip (1)

3185

GLAZIER'S TETHERING KIT

KIT INCLUDES: 3713 Elastic Tool Tail (3), 3700 Web Tool Tail (6), 3755 Self-Adhering Tape Trap (2), 3704 Wire Loop Tool Tail (6), 3780L Power Tool Trap (1), 3775 Water Bottle/Canister Trap (1), 3770L Tape Measure Trap (1), 3156 Coil Tool Lanyard (2), 3118F(x) Tool Lanyard (1), 3108F(x) Tool Lanyard (1), 3400 Glove Clip - Dual Clip (1)

3186

IRON/STEEL WORKER'S TETHERING KIT

KIT INCLUDES: 3713 Elastic Tool Tail (6), 3700 Web Tool Tail (6), 3755 Self-Adhering Tape Trap (2), 3790XL Shackle Trap (2), 3770L Tape Measure Trap (1), 3780L Power Tool Trap (1), 3156 Coil Tool Lanyard (2), 3118F(x) Tool Lanyard (1), 3108F(x) Tool Lanyard (1), 3400 Glove Clip - Dual Clip (1)

3187

SCAFFOLDER'S TETHERING KIT

KIT INCLUDES: 3713 Elastic Tool Tail (6), 3700 Web Tool Tail (6), 3755 Self-Adhering Tape Trap (2), 3790XL Shackle Trap (2), 3770L Tape Measure Trap (1), 3156 Coil Tool Lanyard (2), 3118F(x) Tool Lanyard (1), 3108F(x) Tool Lanyard (1), 3400 Glove Clip - Dual Clip (1)
