# HAND PROTECTION

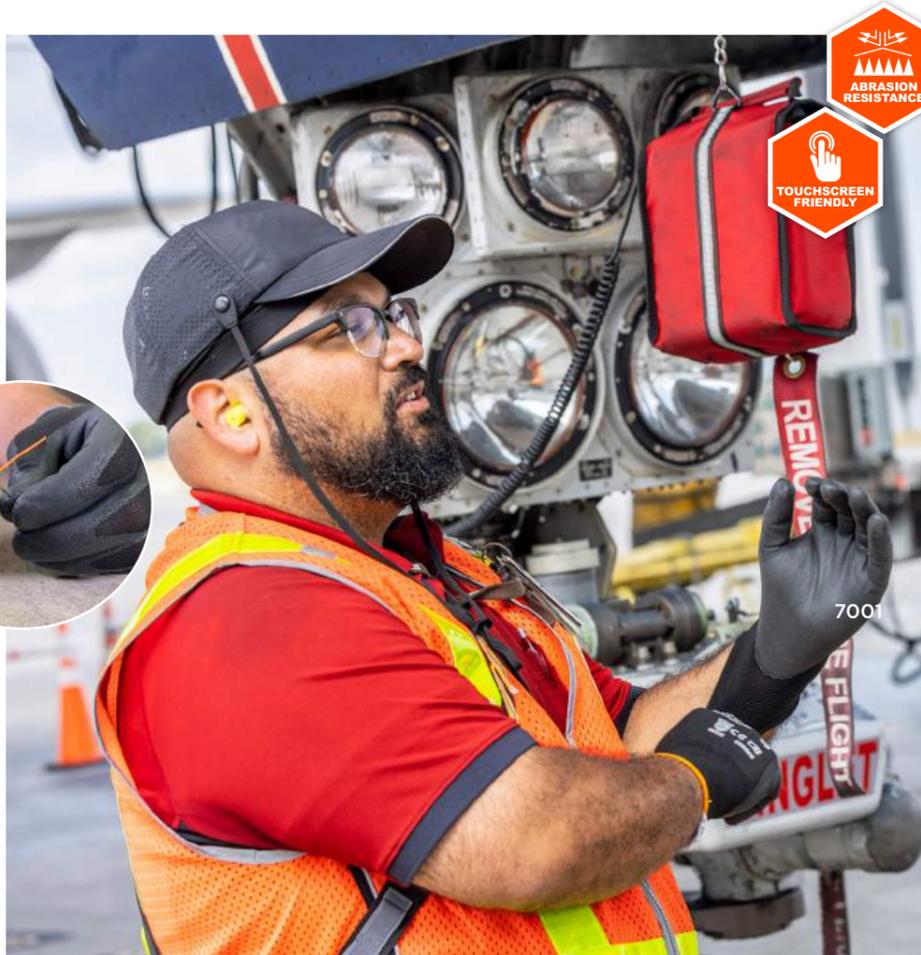

Too hot. Too bulky. No grip. There always seems to be an excuse. But before you go bare knuckle, consider 70% of hand injuries happen because gloves aren't worn. The other 30%? Wearing the wrong gloves for the job. ProFlex® Gloves have one crazy goal in mind: to get worn. Period. You might even find they help you do the job better. (We can dare to dream, can't we?).

## STOP FUMBLING THROUGH THE WORKDAY

Not only are ProFlex® 7001 Nitrile Coated Gloves soft, comfortable and form fitting for "thread the needle" precision, but their two-layer DSX nitrile coating (a.k.a. (D)ry (S)urface (E)xtreme) boosts glove durability and enhances grip on dry materials and surfaces.

# THERMAL GLOVES

"Cold hands, warm heart." That's what they say, right? Ha. A charming sentiment spoken by someone who's never de-iced a seven-three-seven in the middle of a polar vortex wearing gloves that weren't up to the task. When hands go cold and clumsy, things get dicey. And it's hard to believe in the warmth of your heart when you lose your grip on the job—causing damage to property, productivity and your fellow cold warriors.

# SUPPORTS

Our spiny senses are tingling. That can only mean one thing: somewhere nearby a lurking lumbar disaster is looming. Or maybe the dastardly and deleterious effects of repetitive motion has brought with it the sinister syndrome known as carpal tunnel. In the warehousing and distribution game, sprains and strains are perennial public enemy #1. Fear not. Your friendly neighborhood support slinger is here to thwart the evils of everyday wear and tear that can lead to the kind of chronic pain we wouldn't wish on even the most notorious supervillain.
