WHAT DO PHOTOCROMIC LENS CATEGORIES 0-4 MEAN?

Photochromic lenses are grouped by "category," which describes how light or dark the tint gets. It is a range, from nearly clear to very dark, based on lighting conditions.

CATEGORY	CAT. 0	CAT. 1	CAT. 2	CAT. 3	CAT. 4
TINT LEVEL					
BEST USE	INDOOR / LOW LIGHT	OVERCAST / MIXED LIGHT	MODERATE DAYLIGHT	BRIGHT SUN	EXTREME GLARE ENVIRONMENTS
