FOR THE ONES WHO GET IT DONE

HIGH VISIBILITY HANDBOOK

SOLUTIONS, SUPPORT AND OUR COMPLETE HI-VIS LINE-UP

BE SEEN. FEEL HEARD.

WITH A RESPONSIVE, FULL-SERVICE HI-VIS PROGRAM THAT WORKS FOR YOU.

Any knucklehead can slap some silver tape on neon mesh and call it a day. But the truth is, “worker safety” and “lowest bidder” go together as well as orange juice and toothpaste. Or nuts and gum. Or reasonable debate and Thanksgiving with Uncle Larry the conspiracy theorist (turns out proving the world ISN’T ruled by an elite group of reptiles secretly led by Justin Bieber is harder than you think).

Anyway, on the flip side of all that is a responsive, full-service program that works for you. An extension of our decades’ long obsession with helping Make the Workplace a Betterplace™. Whatever it takes. Sure, that means the most Tenacious Work Gear® on the planet. But it also means a deep, fine-print level understanding of standards & risk, matched with an eagerness to help solve your unique end-to-end challenges—from spec to supply chain.

So whether it’s considering your crew’s compliance down to the last square inch of fabric (hey, it’s a fine line between nerdery and tenacity) or partnering to create just the right solution to reflect the realities of your worksite, we’re here—and we’ve got your be-seen back.

YOUR PARTNER IN SHINE

Did you know all Class 2, Type R garments require 201 square inches of reflective? Or that there isn't an orange flame-resistant fabric in existence that's ANSI/ISEA 107 approved?

Gold star if you did. But if not, we're here to translate the tough stuff to make sure every crew you serve is always compliantly up to code with solutions that meet the demands that matter most. Yours.

"From helping maintain compliance and working closely with us to develop the best possible solutions to fit our very specific needs. Ergodyne's hi-vis program is second to none."

- Leading Airline Safety Director

WHY US? BECAUSE WORKER SAFETY IS NOT A COMMODITY

In a world where dayglow grifters and bottom-dollar bidders would lead you to believe it's all the same, we're out to prove that saving a few dimes on the front end isn't worth the inevitable bite in the back end.

INNOVATION

Why stop at "being seen" when you can turn this staple of personal protective equipment into personal *productivity* equipment? Through far-out performance fabrics and above-and-beyond design features, we're helping create crews of shiny happy people with mindfully crafted, high-quality gear.

COLLABORATION

From hi-vis development and testing to risk assessment and identifying compliance gaps in your existing hi-vis program, everything we do is driven by a commitment to deeply knowing what you and your crew are up against day after day.

EDUCATION

If you find the subtleties of hi-vis standards easy to miss, no worries. You're not the only one. In fact, we've helped some of the biggest organizations in the world get up to code with a deep-seated knowledge built over 20+ years on the ANSI/ISEA 107 Hi-Vis Product Group Committee (the group that helps inform, shape and revise the hi-vis standard).

every challenge has a
**BRIGHT

EXTREME TEMPERATURES

From workplace inferno to Ice Station Zebra, you've always got the right look-at-me layer to help you hold the line when Mother Nature loses her mind.

DOUBLE TROUBLE

Sparks? Flames? Tools with commitment issues? Handle two kinds of trouble at once (and cover your regulatory heinie) with hi-vis that doesn't stop at being seen.

THE PREDICTABLY UNPREDICTABLE

Some jobs run hot. Some jobs run cold. Some hit every extreme before lunch. Thankfully your impossibly versatile, shapeshifting jack[et] of all temps is along for the ride.

TWO WAYS TO STAND OUT

Essential or Performance Series—one gets the job done, the other goes the extra mile. Neither will let you down.

SHINE BRIGHT, TREAD LIGHT

Eco-friendly solutions made with high-performance post-consumer materials—so you can go greener without giving up a single stitch of safety.

FIT FOR THE JOB

Our Women's Hi-Vis Collection is designed to work hard, look the part and (are you ready for this??) actually fit. "Shrink it and pink it"? We say shove it (respectfully).

CLASS 2 SAFETY VESTS

When you're burning the midnight oil on interstate highways and byways, spelunking below the crust of the earth ferreting out the next great mother lode or fixing your burgh's energy grid during a blackout, you need to make sure you're visible. Highly visible. To avoid drama in the darkness, outfit yourself in our ANSI/ISEA 107-compliant GloWear safety vest line and become a beacon unto others.

BADGE OF HONOR? THINK AGAIN

YOUR POINT OF PRIDE IS MISSING THE POINT

Too cool to wear a bright, shiny (reflective) vest on the job? Afraid you'll look too much like a wide-eyed, coffee-fetching rookie? Time for a reality check, you ol' grizzled vet you. It seems your point of pride is missing the point. If you're not seen, you're at risk. With experience comes wisdom, act like it and stay visible.

MORE SIZING OPTIONS FOR A JUST-RIGHT FIT

Word on the worksite was that hi-vis vest sizing was... inexact. Smalls were too large, larges were too small, cats and dogs living together, mass hysteria!

Well, by adding single size options to the mix, we've answered your call to accommodate those that were swimming in or squeezed by our traditional dual size options. Not too small, not too big... but juuust right. Call it the Glo-dilocks zone.

PICK YOUR FIT CHOOSE SINGLE OR DUAL SIZING

*SINGLE SIZE has extra length and a more tailored fit

DUAL SIZE is a looser/wider fit, good for wear with jackets

*Look for "-S" on the model number to know if a single size option is available

HI-VIS COMPLIANCE ISN'T ROCKET SCIENCE WHICH IS TOO BAD, BECAUSE THAT'D PROBABLY BE EASIER

Fear not, we're here to break down the standard in simple(r) terms.

ANSI/ISEA 107 is the industry regulation that sets design requirements and performance testing criteria for all types and classes of high-visibility wear, particularly the amount of required fluorescent background material and reflective to keep workers safe and seen.

PURPOSE

Enhances daytime visibility by adding contrast against background environments

APPROVED FLUORESCENT COLORS

LIME ORANGE RED

PURPOSE

Enhances low-light nighttime visibility by reflecting light back toward the original source

APPROVED REFLECTIVE

SOLID SEGMENTED COMBINED PERFORMANCE

PURPOSE

Creates biomotion that signals awareness to the brain that it is looking at a human

GLOWEAR® HI-VIS:

HEADWEAR

Everything you need to knock heads with hard-charging hazards and hassles. From cooling sun hats to bonk-proof winter beanies, your melon stays covered, seen and ready for work through all the job's highs (blazing summer temps) and lows (clearance, light and a mercury line stuck somewhere south of reasonable).

GLOWEAR® HI-VIS:

ACCESSORIES

Smart options to level-up the crew’s conspicuity. Ha... *conspicuity*. That’s fun to say. “Be seen” is another (less fun) way to say it. And whether driving, walking or just standing there, these add-ons help boost your conspicuity from every angle.

HARD HAT ACCESSORIES

Hard hats work hard enough without turning into personal saunas. GloWear and Chill-Its liners, shades and sweatbands bring the temperature down while giving crews a clearer, brighter profile in low-light conditions. It’s comfort, cooling and visibility—all built to integrate cleanly into standard suspensions so you can focus on the work, not the heat.
