FIND THE SILVER LINING IN EVERY WORKDAY

with ampliFIRE™ Heat Reflective Technology

Not every day is a good day.
But thanks to ampliFIRE™
heat reflective technology,
every day is a warm day.
Designed to amp up your
body heat by capturing,
reflecting and trapping
what you create, it's the
cozy silver lining in your
coldest, cruelest shifts.

**THIN IS IN.
MORE WARMTH. 30% LESS BULK.**

There's a common misconception that bulkier means better when it comes to staying toasty. But the 3M™ Thinsulate™ Insulation found in our Cold Storage Collection retains more warmth with 30% less bulk AND holds up to more laundry cycles than the generic polyfill used by leading competitors.

★★★★★
"ABSOLUTELY LOVE
THESE GLOVES"

"I work in food distribution as a selector in the freezer and spend a lot of time in below zero temps. The grip is great and the touchscreen works amazing with my gear. Highly recommend if you work in temps below zero and need finger dexterity."

BALACLAVAS, HATS + GAITERS

Avoid cold bodies, cold brains, deteriorating performance and disoriented decision-making with thermal headwear. Designed to go beyond the core to protect skin and extremities most vulnerable to frostbite.

★★★★★
"MUST HAVE"

"Had to go out in some pretty cold days (-17°F)... keeps you warm but the best part is it keeps the wind off your neck."

"Worked perfectly...Kept me warm when I needed it to, and didn't make me sweat the way long johns do. Plus it looks cool as hell. This shirt is honestly one of my favorite pieces of clothing."

- 6435 Online Review

TAKE THAT, DAD.

Guess who's in control of the thermostat now?

For years, you lived under a strict household decree—no one touches the thermostat but Dad. Well well well... look who's in control now. With three levels of pushbutton heat and a low-profile fit that slides perfectly under your jacket, you get the adjustable warmth (and maybe emotional closure?) you need. So, go ahead. Crank it up. Feels good, doesn't it?

TRACTION

MICHELIN TIRES FOR YOUR FEET? YUP. IT'S A THING.

Soup-up your outsoles with the same tire tech that keeps sports cars glued to the road.

6325
SPIKELESS TRACTION DEVICES -
WINTER CONDITIONS
SIZING: S-2XL

6326
SPIKELESS TRACTION DEVICES -
SLIP-RESISTANT & OIL-RESISTANT
SIZING: S-XL

TREAD DESIGN

"Block sipings" create additional tread surface area for increased grip on snowy surfaces.

PRESSURE DISTRIBUTION

Micro-pumps increase adhesion on icy surfaces.

GROOVE DESIGN

Strategically placed grooves allow for water evacuation when pressure is applied on wet surfaces.

TREAD PATTERN

Provides constant contact with slippery surfaces

SCULPTURE DESIGN

Provides adherence and adaptability on various ground conditions

MID-SOLE ICE CLEATS

Traction with a twist.

Rotate the studs to the top of boots to preserve floors AND backsides (spikes + hard flooring = slip hazard).

Headed back outside? Just flip to grip with 12 tundra-chomping tungsten carbide spikes.

UNDERSTANDING THE **TEMPERATURE RATINGS** OF YOUR THERMAL GEAR

RATED TO
-°F
(-°C)

The truth is, temperature ratings are merely a performance guide, not gospel—the best direction available through exhaustive testing and consideration of **three major factors**:
Insulation (CLO Value) + Activity (MET Level) + Time (Duration)

1

INSULATION
CLO Value

Insulation performance is measured by CLO rating.

WHAT IS CLO VALUE?
Degree of insulation provided by an article of clothing. The higher the CLO, the warmer it is.

+

2

ACTIVITY
MET Level

When you're moving, you're creating heat.

WHAT IS MET LEVEL?
(M)etabolic (E)quivalent of (T)ask is the ratio of your working metabolic rate relative to your resting rate.

+

3

TIME
Duration

How long are you in the cold?

WHAT IS DURATION?
Continuous time spent in the cold.

1

INSULATION LEVELS

Measured by CLO

The higher the CLO rating, the warmer the gear will keep you.
You've gotta factor in **activity MET level** + **time duration**, but let's start with **CLO** first.

ZERO CLO

0.4-0.7 CLO

1.30 CLO

1.70 CLO

2.05 CLO

2.59 CLO

4.40 CLO

MAX CLO

2

ACTIVITY LEVELS

Measured by MET (Metabolic Equivalent of Task)

When your body is working at a higher metabolic rate, it's creating a lot of heat that will affect your gear's thermal performance. Find the gear that best fits the job:

MANUAL FACILITY

Workers in a fully manual warehouse would fall into the 3-6 MET ("moderate") range.

This means an increase in thermal performance.

AUTOMATED FACILITY

Workers in a fully automated warehouse would fall into the 0-3 MET ("low") range.

This means a decrease in thermal performance.

MANUAL FACILITY

N-Ferno®
Freezer Gear

Comfort Rating
at 3-6 MET

-49°F for 1 hour

AUTOMATED FACILITY

N-Ferno®
Freezer Gear

Comfort Rating
at 0-3 MET

-13°F for 1 hour

3

TIME DURATION

Thermal performance decreases over time

ACTIVITY LEVEL: MODERATE WORK

ACTIVITY LEVEL: LIGHT WORK

BETTER LIVING THROUGH LAYERING

No single magic garment can adapt like a proper layering system.

BASE LAYERS

Starting with a moisture-wicking, quick-drying layer is key.

MID LAYERS

Traps body heat + allows workers to remove or add layers as needed.

OUTER LAYERS

Durable, breathable layer made to stand up to tough use and provide added warmth.
