STANDARDS + COMPLIANCE

ANSI/ISEA Z89.1-2014

(STUFF HITTING YOU)

Standard for Industrial Head Protection

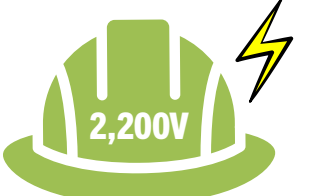

TYPE 1

REDUCES THE FORCE OF IMPACT FROM TOP OF HEAD

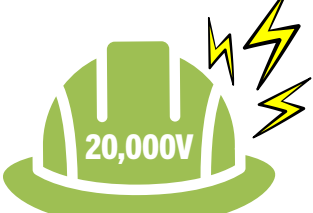

CLASS C

NO ELECTRICAL PROTECTION

CLASS G

PROTECTS AGAINST ELECTRICAL HAZARDS UP TO 2,200 VOLTS

CLASS E

PROTECTS AGAINST ELECTRICAL HAZARDS UP TO 20,000 VOLTS

TYPE 2

REDUCES THE FORCE OF IMPACT FROM TOP, FRONT, SIDE + REAR OF HEAD

HARD HATS + SAFETY HELMETS

ANSI/ISEA 100

(YOU HITTING STUFF)

Industrial Bump Cap Standard

The **ANSI/ISEA 100-2024** standard establishes performance requirements for bump caps.

CLASSIFIED INTO:

LEVEL 1 (basic protection from stationary objects) + **LEVEL 2** (higher impact resistance)

while ensuring benchmarks for impact protection, comfort and durability for environments where traditional hard hats aren't required

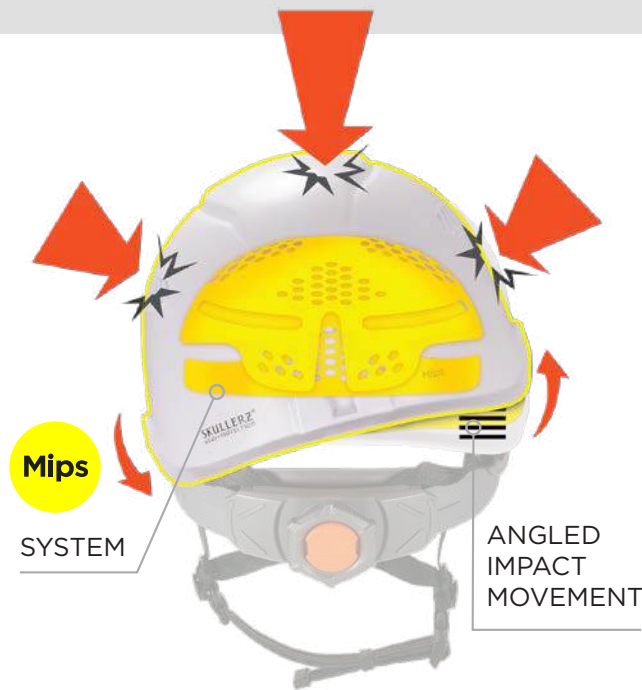

BUMP CAPS

HOW **Mips** WORKS

Mips® system is designed to redirect harmful rotation motion away from the head in certain angled impacts – **a danger not tested for in current hard hat & safety helmet standards.** Upon impact, this lightweight, unobtrusive layer slides in all directions to redirect rotational energy that otherwise could be transferred to the head and can increase the risk of brain injury.

MIPS TECHNOLOGY

ADDRESSING EVERY ANGLE

Designed to provide movement inside the helmet to help reduce rotational motion to the head in certain angled impacts, thereby lowering the risk of brain injuries.

Ergodyne joins forces with Mips®

Ergodyne focuses on dangerous angled impacts with the launch of new safety helmets with Mips® safety system.

By adding Mips® technology to our best-selling Safety Helmets, we are taking a step aimed at helping to reduce the risk of more of the brain jarring and tearing that can ultimately lead to lifelong brain damage.

– Tim Gallant, Ergodyne Product Director

SAFETY HELMETS

Folks who prefer our Safety Helmets are definitely missing something upstairs — namely the thick layer of heat-trapping foam commonly found in other safety helmets.

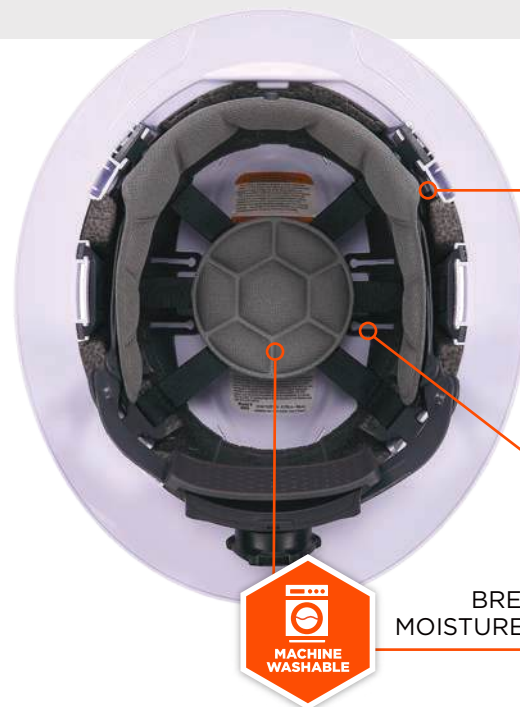

TOTAL AIRHEAD
ULTRA BREATHABLE

“BAD LITTLE BUCKET”

The venting is easy to open and close [...] so your potato doesn't get baked.

HEAD PROTECTION:

TYPE 1 HARD HATS

Of course our Hard Hats are tested to meet and exceed industrial safety standards. That's a given. And yes, they're full of useful little details (like an optional removable LED lamp and slots for ear protection, face shields and other common accessories). But it's the comfort - by way of the perfectly balanced suspension, airy ventilation and size adjustment knob to dial in the perfect fit - that makes them the hard hat's crowning achievement.

HEAD PROTECTION:

TYPE 1 SAFETY HELMETS

Everything you love about our classic Type 1 buckets—unbeatable comfort, balance and fit—with a climber-style brim for visibility and a secure strap that keeps safety in place upon impact. Blow this lid off? Not by the hairs of your chinny chin chin.

CUSTOM LOGO PROGRAM

Mmm...SMELLS LIKE TEAM SPIRIT

HERE'S THE DRILL: CUSTOM LOGO PROGRAM

Our products come with designated logo locations, giving you flexible options to customize while maintaining a consistent look.

YOU GIVE US:

- Suitable digital art files or camera-ready artwork (EPS-format files work best but large, hi-res TIF or JPG files [3000 dpi] work too)
- All necessary PMS/Pantone colors
- Approval of a digital mock-up

WE GIVE YOU:

A product with a look all your own. Minimums vary based on the type of product. Don't worry, it's low.

Call Ergodyne Customer Support or your Sales Rep today to answer all your custom logo questions... we'll make it easy for you to look good!
