N-Ferno® 6847 FR Dual Compliant Balaclava meets two flame resistant standards - both NFPA 70E and NFPA 2112. This warm face mask blocks all the elements: earth, wind, fire, and water. Designed with Polartec® Power Grid™ FR fleece, which is a grid-construction knit that minimizes fabric mass and maximizes fabric performance for increased warmth and lighter weight. Can be worn alone or under hard hats, ski helmets or other head protection.

Features

- UL® certified to NFPA 2112, also meets performance requirements of ASTM F1506; classified to NFPA 70E
- Utilizes Polartec® Power Grid™ FR 325g fleece fabric for breathable warmth
- Superior moisture-wicking technology keeps wearers dry and comfortable
- Unique hinge design allows for easy adjustments and adaptability to the weather
- 3-panel design for added comfort and better fit
- CAT 2; ATPV: 20 cal/cm² - highest arc-rated balaclava in line
