

ProFlex®

450

SOFT CAP GEL KNEE PADS

The ProFlex® 450 Comfort Hinged™ Soft Cap Gel Knee Pads take the best-selling 350 and adds the Comfort Hinge™ technology. The top strap sits higher on the leg and out of the back of the knee, which helps keeps you from walking out of the front of the kneepad, while offering another layer of protection from impacts to the thigh. Made with gel foam + EVA foam padding for all-day cushioning, and the 420D nylon-rubber soft cap has incredible durability and abrasion resistance while providing tremendous grip.

Features

- Comfort Hinge™ technology gets the top strap higher on the leg while preventing you from walking out of the front
- Lightweight cushion that lasts the whole work day
- The slip-resistant ultra-durable 420D nylon-rubber soft cap keeps you safely in place

Application

- Construction
- Maintenance
- Flooring
- Trades
- Airline baggage handlers
- Freight
- Mechanics

Comfort Hinged™ Technology

Our best-selling knee pads are made even better with the addition of a hinge flex point.

IMPROVED TOP STRAP PLACEMENT

The top strap sits higher on the thigh for added flex and protection.

GEL FOAM + EVA FOAM = ALL-DAY COMFORT

Combination of gel and EVA foam offers lightweight cushioning.
