ITEM #	SIZE	COLOR
19162	12" - 48" (30.5cm - 123cm)	Gray

Order in Multiples of: 6

Designed to prevent snag and tangle hazards as well as dropped objects, the compact Squids® 3166 Coil Tool Lanyard with Dual Carabiners tethers small hand tools, PPE like hard hats or even cell phones and tape measures when working at-heights.

Features

- Easily attaches to hard hats and other small hand tools
- Coiled lanyard design prevents snag and tangle hazards; measures 12in / 30cm coiled; 48in / 122cm extended
- Two lightweight aluminum carabiners with manual locking screw gate for easy connections
- Third-party certified to a 2:1 safety factor; max. safe working capacity: 2lbs / 0.9kg

Application

- Construction
- Telecommunications
- Oil & Gas
- Power generation
- And more!

Tested. Trusted. Versatile.

Our Squids® 3166 Coil Tool Lanyard is built to surpass the design, performance, and labeling requirements of ANSI/ISEA 121-2018 aka The Dropped Objects Standard. And its compact versatility makes it a must-have in any dropped objects prevention tool kit.

If a tethering solution doesn't meet the standards of ANSI/ISEA 121-2018, it has no business on the jobsite. Find confidence in compliance with Squids® Tool Tethering Systems.

A popular solution for hard hats, but that's not all – not by a long shot. Secure small hand tools, cell phones and more.
