Compliance Is In the Bag

Made to surpass the design, performance, and labeling requirements of ANSI/ISEA 121-2018, our Squids® Hand Tool Tethering Kit gives workers exactly what they need to tether up with confidence – all in one handy bag.

If a tethering solution doesn't meet the standards of ANSI/ISEA 121-2018, it has no business on the jobsite. Find confidence in compliance with Squids® Tool Tethering Systems.

The Squids® Hand Tool Slips™ included in this kit allow you to tether tools in one easy step – no tape or shrink!
